Procedure:

Start by folding a piece of cardboard and drawing half of a hare on the middle that is folded. Cut out the template.

Fold a piece of the design paper (so you get 2 Easter bunnies) and draw the Easter bunny template on the back of it.

Cut out the Easter bunny according to what you have drawn, so you have 2 pieces. These are then glued together.

Glue the 2 Easter bunnies in the coloured paper together.

Glue the googly eyes on with a regular glue stick (it is important not to use the glue gun here as it does not work with the googly eyes and design paper).

Draw a small nose with the coloured markers.

Use the glue gun to glue the felt ball onto the tail of the Easter bunny.

Finally, use needle and sewing thread to sew a small loop at the top of the Easter bunny so you can hang them up.

Here you have your easy DIY Easter bunnies.
