Here's a free guide on how to make a cosy and summery travel game. The game is a nice size that, along with the fabric bag, makes it easy to bring along for road trips, airplane rides, and any other time you're on the go. You can choose how to decorate the stones, but in this guide we have chosen to draw the stones as colourful ladybirds as well as bees.

You can make 6 naughts and crosses games from this kit..

You will need:

- [Cloth bag](#)

- [Stone markers](#)
- [Black Posca marker](#)
- 6 small pebbles
- If necessary, a wooden stump, wooden plate, serving tray or something else that can be used as a playing surface

Instructions:

- 1) Go to the beach or forest and find 6 round pebbles:

2) Draw the naughts and crosses game board on the fabric bag with posca marker:

3) With the stone markers, draw 3 ladybugs and 3 bees on the pebbles (or any other theme you feel like):

4) Your travel game is now ready to go with you on the go! You can also give the game as a small gift to children and childlike souls - in that case, the bag is a cute gift wrapping in itself, and you can use the back of the bag as a to-and-from card or to write a nice holiday greeting on:

5) You can also draw the game board on a wooden stump or serving tray, where you can enjoy cake and lemonade while you play away at your homemade naughts and crosses game:
