(Alternating a row of treble stitches and a row of *1 FPtr in s, 1 BPtr in the next s*)

Abbreviation

ch = chain stitch

s = stitch

dc = double crochet

sl st = slip stitch

tr = treble

FPtr = front post treble crochet

BPtr = back post treble crochet

dec = decrease

(two tr are crocheted together)

Instructions

You begin all rounds with 2 chain stitches, you finish all with a slip stitch in the first chain stitch.

The 2 chain stitches at the beginning are not counted in.

Cast on (86), 90, (96), 100, (104) s and join them in a ring with a sl st. All rounds are crocheted the same way for all sizes.

As you go, you will find that some stitches are left over after one round. You crochet these stitches without dec.
