THE HANDLE

It is useful to insert stitch markers where the handle is meant to be.

- Place a marker in the next stitch, stitch 1 and stitch 8 - skip 49 stitches
- Insert a marker in stitch 58 and stitch 67, crochet the handle on between the two markers

Make 8 double crochets, 1 chain stitch as turning chain.

Now crochet the handle on the opposite side.

Make sure that the handle is not twisted and hold it against the opposite side of the net and work it

with double crochets.

Cut the yarn so it has a long end. To give it a nice finish weave through the stitches on the handle so it lays nicely up the side of the net - fasten the end.
