## Materials

- 1 piece of [Christmas fabric](#)
- [Sewing needle](#)
- [Sewing thread](#)

- [Craft filling](#)
- [Saks](#)
- Something circular to use as a template, like a plate.
- 1 [\(coloured\) pencil](#)

## Procedure

1) Put your plate or another circular object on the wrong side of your fabric and draw all around.

2) Cut out the shape.

**3)** Thread your needle. If you are using the embroidery thread from your Christmas calendar, simply split the thread so you are sewing with two strands. Tie a knot at the end.

**RITO**

**4)** About (it does not have to precise down to the millimetre) half a centimetre into the fabric, sew with straight stitches all the way around the edge.

5) When you have sewn around the edge, pull your thread a little so the fabric curls up.

**RITO**

6) Before pulling all the way in, stuff some craft filling into the fabric.

**RITO**

7) Tighten the thread completely. You now have a Christmas ball.

**RITO**

- 8)** Fasten the thread by sewing a little back and forth at the top of your Christmas ball.
- 9)** If you have enough thread left, you can also sew your way to the middle of the ball, cut the string, tie a knot at the end and you'll have a string to hang your Christmas ball from.
- 10)** If you don't have enough string, simply sew a new thread onto the top of your ball.
